

Communication

Date	29 September 2026
Team ID	6ab9d3ead083b0e2ee74560a
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders With Flow Designer
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp group	All team members	Share what was done and what is planned for the day
2	Progress Update	Weekly	Google Meet	All team members	Review completed modules and screenshots
3	Issue / Bug Discussion	As Needed	WhatsApp group	Affected members	Solve problems in the catalog item, flow or recording
4	Stakeholder Review	Bi-Weekly	Email / Google Meet	Team and mentor	Get feedback on documents and the working flow
5	Final Demo Rehearsal	Once	Google Meet	All team members	Practise the demo script and timing before recording
6	Document Sharing	As Needed	GitHub repository, Google Drive	All team members	Share the project documents and the demo video link

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	The microphone was not detected while recording the demo, so no audio was captured.	Windows sound and privacy settings were checked and the microphone was enabled before re-recording.
2	Sharing the admin login with evaluators would give full access to the instance.	A separate demo user was created with only the roles needed to view the solution.
3	Screenshots and documents were spread across members' devices.	Everything was collected in one GitHub repository organized in eight phase folders.
